To support the well-being of Emerson students, the ASCEND team - a partnership between the University of Utah and SLCSD- is sending a screener to all Emerson families. Following completion of the school-wide screener, your child may be eligible for supports from the ASCEND team. ASCEND will contact you for parental consent before beginning any supports for eligible students.

What is ASCEND? Click Here

What is the screener? A 12-item confidential self-rating survey that measures social, emotional, and behavioral health of students

How does it help us? Information from the screener helps us understand the needs of our students and make effective decisions at the school, classroom, and individual level

Why does it matter? Supporting the needs of our students and school community is our priority. It is important for your child to feel that school is a safe, supportive environment where they can focus on learning.
